TECHNICAL SKILLS

Java, J2EE, Servlets

OOPS, DSA

Spring MVC / Spring Boot

Spring Data JPA / Hibernate ORM

SDLC, Agile, Problem Solving

Microservices, PKI

Web Services, REST/SOAP APIs

Web/Mobile App Development

Web Frameworks (React/Angular)

Azure DevOps, CI/CD, Git

SQL, PL/SQL

AI/ML SKILLS

Python, R

Data Analysis & Visualization

AI/ML models & Integration with Java

PROFILE

Experienced software engineer with 3+ years of experience in various cutting-edge technologies. Professional who loves building cool stuff for the enterprises. Security is at the core of all my work. Problem-solving is my forte and where all the praises are. Be surprised with my creativity, dedication, and spirit to take the challenges head-on. Team person at all levels and loves leading the way forward. You'll always find me helping others no matter what. Anyone would love to have me as a part of their product team.

EXPERIENCES

Jr. Software Developer, eMudhra Limited

July 2022 - Present

Bengaluru, IN

2 yrs 7 months

- Working as a Full Stack Java Engineer for Technology Solutions Group (formerly Enterprise Security Solutions) at eMudhra.
- eMudhra being the largest certifying authority of India recognized by CCA is now heading towards empowering the Digital Trust of an entire nation, secure digital transformation globally with its niche product technology and leadership in Public Key Infrastructure (PKI) industry.
- For me, leading the development of a flagship product called CERTInext (formerly emDiscovery) as a core technical member has been a rich and wholesome experience and will always be grateful to eMudhra for believing in me and giving me this opportunity to build an enterprise product and complete end-to-end automation of product lifecycle.
- CERTInext is a Comprehensive Certificate and Key Lifecycle Manager Suite (CLM Suite) that provides centralized dashboard to manage all the certificates and keys. It also allows the user to discover, automate certificate provisioning from any CAs (emCA, emSign CertHub, Digicert, Lets Encrypt, Microsoft PKI), rotate, revoke, renew, and perform various other cryptographic operations using cryptographic devices like HSM.
- CLM solution can be deployed on-premises as well as on cloud providing great flexibility to scale. CLM solution handles issues within an organization like expiring of certificates leading to system outages, and various other compliance issues.
- Did abundance of research for the SSL/TLS certificate rotation and auto-deployment feature of the application. As a result, we provided auto-deployment of issued certificates to various web/application servers like Tomcat, Apache Web Server, IIS Server, Jetty, WebLogic, OHS, IBM WebSphere, IHS, Certificate Store, and other integrations like SSH, FTP/SFTP, F5 BIG-IP, F5 BIG-IQ, Imperva and Akamai Cloud, Kubernetes, and Azure Key Vault.
- Analyzing the requirements, building workflows, developing new features, testing the same on different environments, resolving QA, VAPT and performance issues, doing code reviews, optimizing code, maintaining code quality as per ISO standards, providing KTs to team members kind of summarizes my roles on a regular basis and providing guidance to the team.
- Conducting POCs for the clients from various geographies, deploying the application to client's UAT/Production environments, and providing accurate deliverables to the clients like SBI has been key to company's growth. Worked closely on-site and off-site with SBI to deliver quality and hassle-free solutions.
- Contributed heavily to various other products including CERTInextAPI (REST APIs), CERTInextClient, emClient, KMSCClient, emCA, eSign APIs, emSign, emSigner Services, and emTSA.

Analyst/Software Engineer, Capgemini

Aug 2021 - Apr 2022

Mumbai, IN

9 months

- At Capgemini, Oracle's Siebel CRM software used to be hosted on different Siebel Servers and our tasks usually included resolving customer request, updating the web app using Siebel tools and enhancing the overall digital customer experience.

DATABASES

MySQL, Oracle

MSSQL, PostgreSQL, SQLite

MongoDB

INTERPERSONAL SKILLS

Gujarati

ACHIEVEMENTS/AWARDS

- Earned a Golden Badge in Java, Python & SQL at HackerRank.
- Received an Elite+Gold Certificate in Java Programming by NPTEL.
- Got felicitated with the Certificate of Excellence as a Top Ranker 2019 at Shree Dewang Mehta IT Awards 2019.

CO-CURRICULAR ACTIVITIES

- Creating content related to diverse Indian Arts and Culture, Indian landscapes, travel, food and more on Instagram.
- Practicing problem-solving and learning about new technology trends.
- Google local guide contributions to help the community.
- Contributing photos of mother nature to image sharing platforms like Unsplash and Pexels.
- Creating social awareness, supporting social media campaigns, and donating to the causes when required.
- Few outdoor activities, sports, yoga, meditation, and much more.

EDUCATION

Bachelor of Engineering, Gujarat Technological University Vasad, IN
Sardar Vallabhbhai Patel Institute of Technology (SVIT)
B.E. (Computer Engineering)
Aug 2016 - Sep 2020
CGPA: 8.75/10

XI-XII Science (GSEB), Vidyut Board Vidyalay Vadodara, IN
Jun 2014 - May 2016
Percentage: 81.8%, **Grade:** A2

X (GSEB), The Mother's School Vadodara, IN
Jun 2013 - May 2014
Percentage: 85.5%, **Grade:** A2

CERTIFICATIONS

Agile Software Development & Atlassian JIRA. Coursera
May 2022 - Present

Java Programming: Solving Problems with Software (Honors),
Coursera
Feb 2022 - Present

Responsive Web Design, freeCodeCamp
Aug 2019 - Present

Programming in Java, NPTEL
Apr 2019 - Present

PROJECTS

Portfolio Design Website Dec 2024 - Feb 2025

Portfolio design website is meticulously built to showcase user journey achieving visual attraction and pixel perfection with one of the best UI frameworks.

Skills: Node.js, React.js, Next.js, Tailwind CSS, Next UI, Hero UI, HTML CSS, JavaScript, Prototyping

Project Link: <https://nimish1969.github.io/>

Employee Record May 2022

Employee Record is a quality web application designed to add, update, delete and view employee details by using the Spring Boot java web framework along with a nice and attractive UI.

Skills: Java, Spring Boot, Hibernate, JPA, JSP, jQuery, AJAX, HTML, CSS, JavaScript, Bootstrap, MySQL, REST API, Maven

Project Link: <https://paurav11.github.io/employee-record/>

BMI Calculator & History Mobile App Mar 2022 - Apr 2022

BMI Calculator & History is an android application that accurately measures your BMI, Ideal Weight & Body Fat Percentage and stores all your results securely in the form of local history.

Skills: Java, Android, XML, Room Database, MDC

HealthEasy Mobile App Aug 2019 - Jun 2020

HealthEasy is an E-Healthcare android application that can predict diseases based on real-time inputs of the symptoms currently observed by the user using Machine Learning.

It also has online health consultation, online training, disease library, and much more.

Skills: Java, Android, Python, Keras, Node.js, MongoDB
