SUMMARY

Experienced software engineer with 4+ years of experience designing agile, microservices-based enterprise architectures and RESTful APIs. Recognized for driving team success through expertise in solving complex technical challenges and building creative, innovative, robust, scalable, end-to-end enterprise solutions. Driven by a commitment to excellence, ensuring timely delivery with exceptional attention to detail.

WORK EXPERIENCE

Software Developer, eMudhra Limited, Bengaluru, Karnataka, India (On-site)

May'25 - Present

- Working as a Full Stack Java Engineer on flagship product: SECUREpass (SaaS-based IAM/PAM/Converged Identity solution with microservices-based product architecture). Handling CI (Converged Identity) R&D for SECUREpass with a centralized scheduler and third-party connector services running seamlessly to drive automation while managing RBAC Access Graphs to control the access of all the cross-platform identities via a single unified platform. Delivering the SaaS and on-prem deployments based on a subscription model.
- Driving digital transformation within the Technology Solutions Group using the India Stack for 10+ major Indian banks and government & financial institutions across the APAC and Middle East regions at eMudhra, India's largest certifying authority licensed by CCA India.

Jr. Software Developer, eMudhra Limited, Bengaluru, Karnataka, India (On-site)

Jul'22 - May'25

- Core Product Development (CERTInext):** Served as a key technical contributor in the development of CERTInext, a flagship Certificate and Key Lifecycle Management (CLM) suite at eMudhra. Led end-to-end automation of the product lifecycle from conception to deployment resulting in a 50% reduction in manual certificate management efforts. The suite provides a centralized dashboard to manage certificate provisioning across 5+ major CAs (emCA, emSign, DigiCert, Let's Encrypt, Microsoft PKI) ensuring compliance.
- Research & Development:** Completed in-depth research on certificate and key lifecycle automation protocols including ACME, SCEP, CMP, and KMIP, enabling the integration of secure cryptographic operations, reducing manual provisioning efforts by 40%.
- Feature Architecture & Implementation:** Developed a critical SSL/TLS certificate rotation and auto-deployment feature, enabling certificate updates across 9+ web and application servers (IIS, Tomcat, Apache HTTP, OHS, WebLogic, WebSphere, IHS).
- Technical Leadership & Process Management:** Core responsibilities included requirements analysis, workflow design, feature development, and issue resolution. Maintained high code quality and compliance with ISO and CMMI Level 5 standards through rigorous code reviews. Implemented code optimizations that improved product performance and efficiency by 75%.
- Client Deployment & Engagement:** Successfully conducted POCs for global clients and managed end-to-end application deployments across UAT and Production environments. Delivered high-impact, customized solutions for key clients like SBI, through effective on-site and remote collaboration.
- Key Contributions:** Made significant technical contributions to other key products and services serving Digital India initiative, including emCA, eSign/eMudhra Digital (digital signatures solution), emSign, emSigner (paperless solutions) and client tools.

Analyst/Software Engineer, Capgemini India, Mumbai, Maharashtra, India (Remote)

Aug'21 - Apr'22

- At Capgemini DCX, managed and enhanced Oracle's Siebel CRM platform hosted across multiple servers, contributing to a 25% reduction in issue resolution time, thereby improving the overall digital customer experience.

ACHIEVEMENTS

- Made significant contributions to three flagship products critical to eMudhra's global business: CERTInext, emCA, and SECUREpass.
- Served State Bank of India (SBI) for over 1.5 years, driving end-to-end SSL/TLS certificate automation both on-site and off-site with CERTInext at eMudhra.
- Shortlisted among the top 50 ideas in DCX Ideathon for my ideation on sustainability goals at an event at Capgemini India.
- Felicitated with a Certificate of Excellence as a Top Ranker at the Shree Dewang Mehta IT Awards 2019, Ahmedabad, India.

SKILLS

Programming: Java, OOP, Python, Golang, Android, SQL/HQL, HTML, CSS, JavaScript, TypeScript, JSON, XML, REST APIs

Frameworks: Spring MVC, Spring Boot, Microservices, Hibernate, JPA, Maven, Gradle, jQuery, Angular JS, React JS, Next JS, Material UI

Databases: PostgreSQL, MariaDB, MySQL, Oracle, MSSQL, SQLite, H2, Firebase, GraphQL, AWS RDS, MongoDB

Cloud/DevOps/AI: AWS, Azure, GCP, Docker, Kubernetes, CI/CD, Git, Claude, ChatGPT, Gemini

EDUCATION

Bachelor of Engineering (Computer Engineering) - SVIT (Gujarat Technological University, Ahmedabad, India)

Aug'16 - Sep'20

CGPA: 8.75/10

XI-XII Science (HSC) - Vidyut Board Vidyalay, Vadodara, Gujarat, India

Jun'14 - May'16

Grade: A2 (81.8%)

X (SSC) - The Mother's School, Vadodara, Gujarat, India

Jun'13 - May'14

Grade: A2 (85.5%)
